

**DUBLIN RIVERSIDE PARK** |  
MASTER PLAN // 2.19.16

**1 Pedestrian Bridge**  
 Iconic pedestrian and bicycle crossing that serves both a critical transportation link and a regional destination featuring the scenic Scioto River corridor.

**2 Pedestrian Bridge Landings**  
 Centers of park activity and events at the interface between neighborhood, park and river.

**3 John Shields Parkway Bridge & Landings**  
 Centers of park activity and events at the interface between neighborhood, park and river.

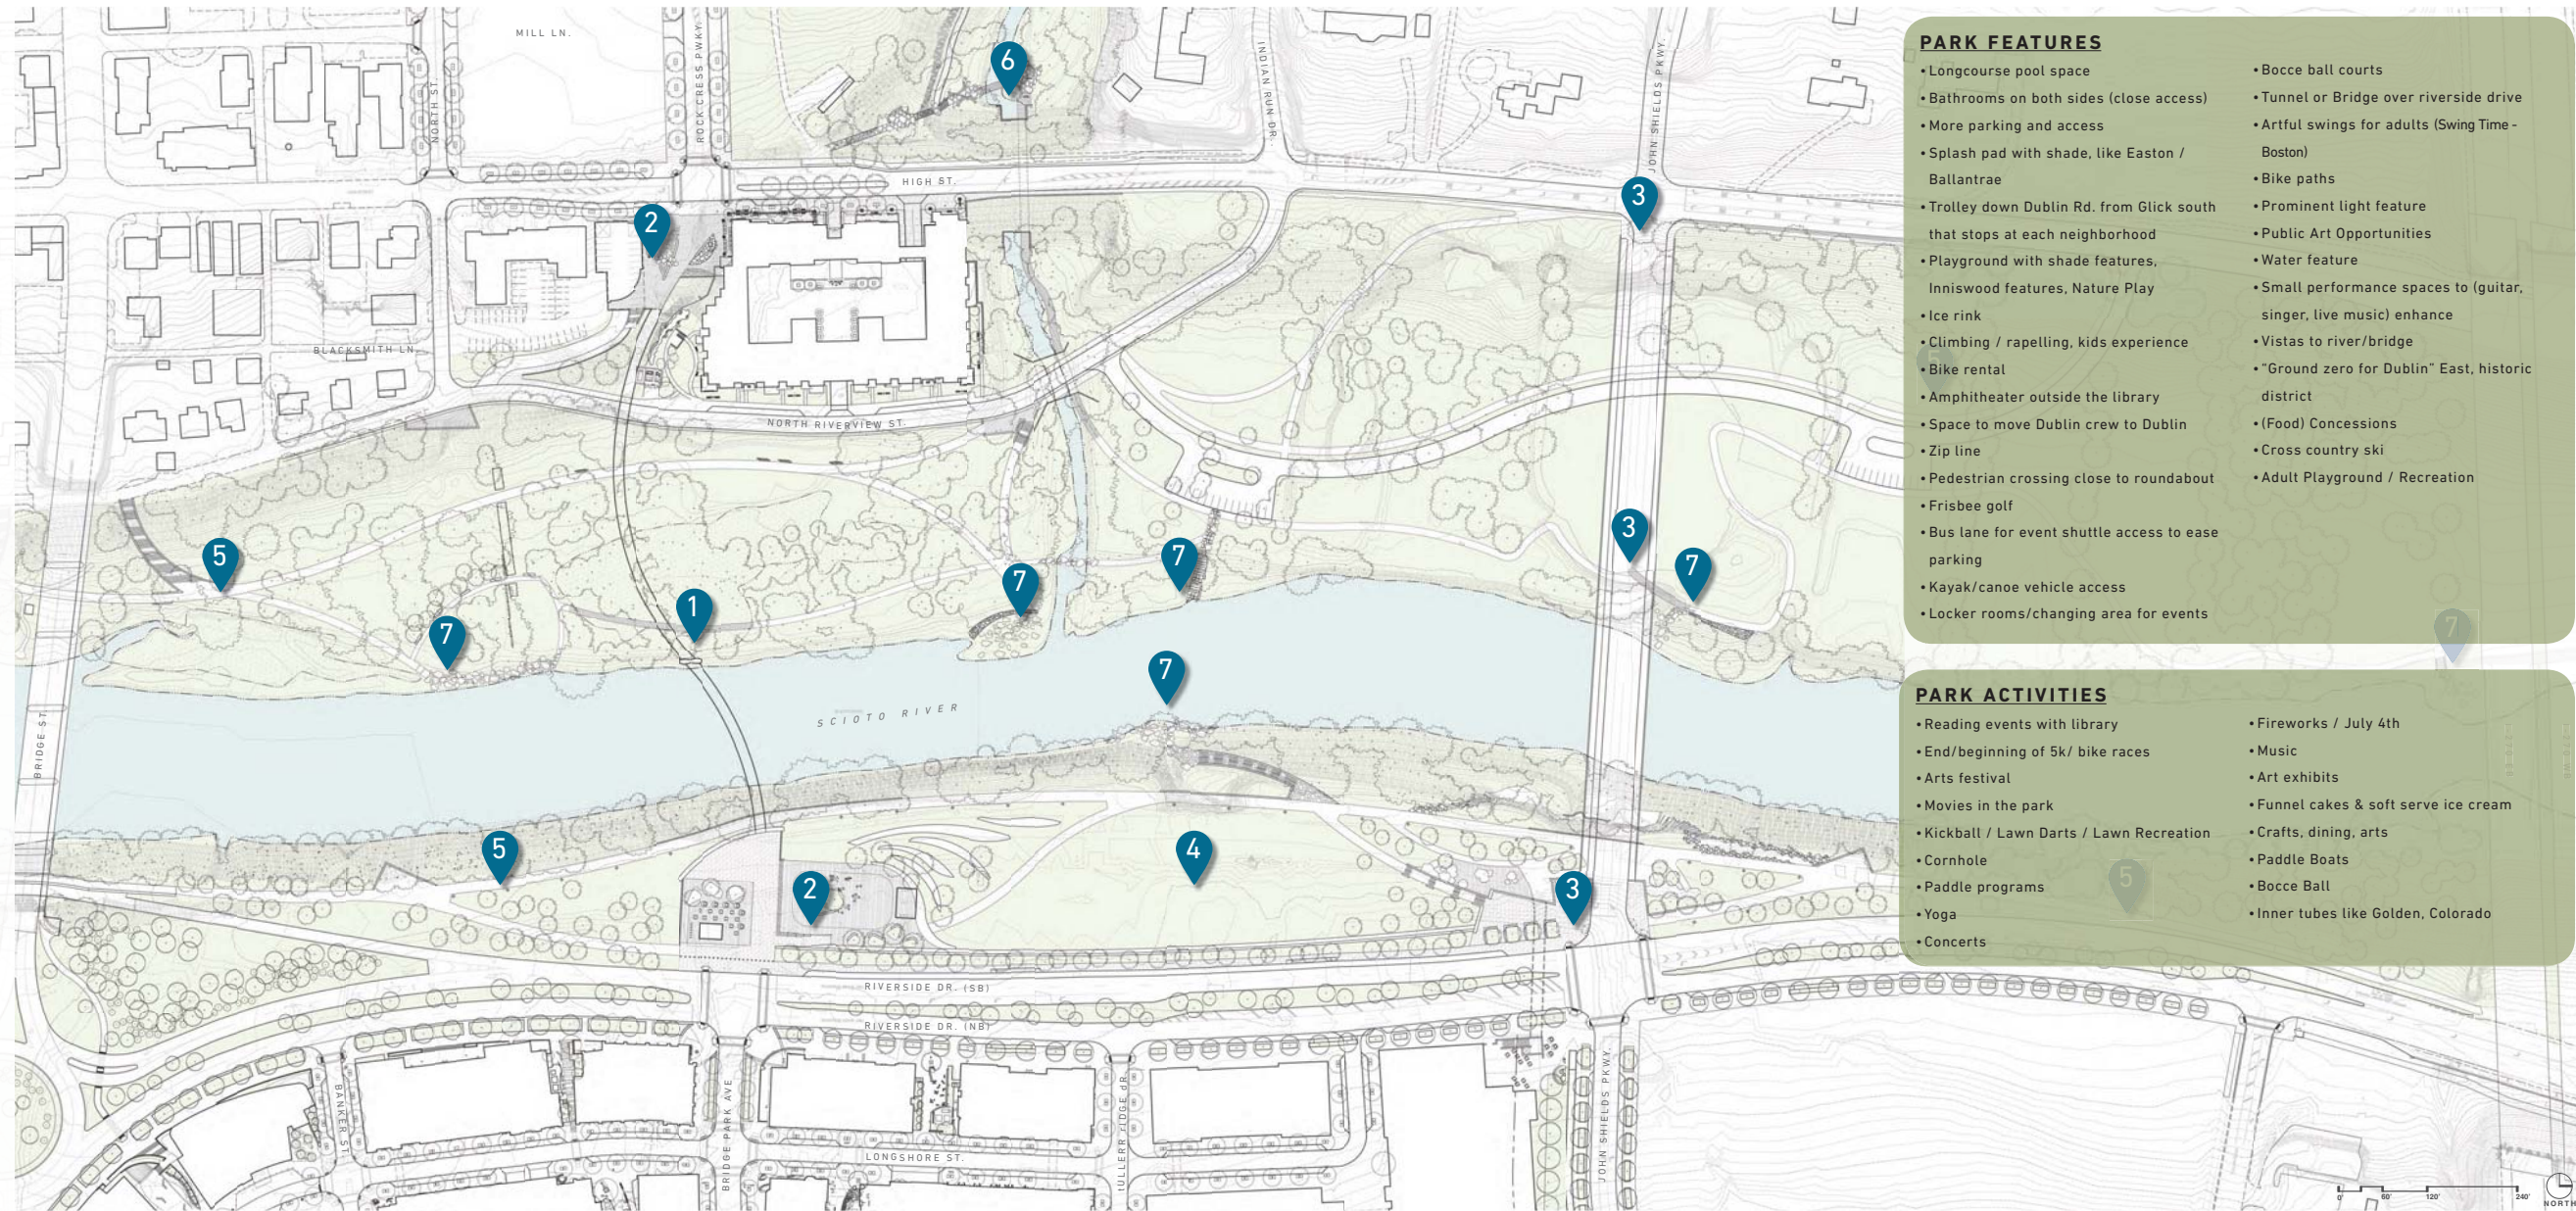

**4 The Green**  
 Flexible lawn space for festivals, events, passive recreation & leisure.

**5 Pathways & Trails**  
 Recreation and immersion in nature within the park and connections to the community and larger river system.

**6 Indian Run Falls**  
 Creative and sensitive access to one of the most dramatic natural features in the region.

**7 River Access & Overlooks**  
 Providing views and direct access to water's edge for fishing, canoeing, kayaking, exploring and education.

**8 Scioto River Environment & Natural Area**  
 All features of the proposed Riverside Park work together towards the major transformative move of enhancing, restoring, preserving and rediscovering the natural amenity at the heart of the Dublin Community: the Scioto River.

- PARK FEATURES**
- Longcourse pool space
  - Bathrooms on both sides (close access)
  - More parking and access
