NACAC National College Fairs

FREE Admission

Register Now at www.gotomyncf.com

STUDENT REGISTRATION!

Students can register for NACAC National College Fairs by going to **www.gotomyncf.com**

Some benefits of online student registration

• Students register for the fair one time.

• Entering the information one time allows the student to elaborate on special interests, extracurricular activities, and accomplishments.

It also eliminates the need for college contact cards.

The POWER of NIAGARA

21st-century Degree • Mentors for the Mind and Heart Beyond the Ridge • World Ready • Purple Pride

A Niagara University education delivers a **coveted 21st-century degree**. Taught by faculty who are **mentors for the mind and heart**, students realize their fullest potential. Our students go **beyond the ridge**, igniting positive change in the lives of others in our community and around the world. And Niagara graduates are **world-ready global citizens** who do well for themselves and others.

Purple Pride is a state of mind. Our Vincentian heritage calls us to strive for excellence and humility — and it's evident in the way we celebrate and take pride in everything and everyone at Niagara University.

We are The Promise of Tomorrow. **THE POWER OF NIAGARA.**

Schedule a personal visit by calling **1.800.462.2111** or visit us online at **www.niagara.edu**.

selb estimation for the second selection and sale and the second second

eady to take the next step in your education? There's no better place to explore your options than at a NACAC National College Fair. Admission representatives from schools across the country are all gathered in one place. Their goal: To encourage you to learn more about their institutions, and help you sort through the qualities you're looking for in a college.

Take advantage of their expertise, and make the most of your time by following these simple steps.

Be prepared

Before the big day, visit nationalcollegefairs.org and scan through the list of colleges and universities that will be represented. Make a note of the schools that interest you the most, and plan to visit their booths at the fair.

Are you looking for colleges that are close to home, or those that are far away? Are you interested in small, private schools, or large, public universities? Which of the institutions in attendance offer your projected major?

"Planning ahead can help you stay focused," said Cynthia Kaan, a Ferris State University (MI) admission officer. "If you have certain schools you know you are interested in, don't limit yourself, but make learning about those schools your priority."

Make your questions count

Like so many other things in life, a successful visit to a National College Fair is marked by quality, not quantity. In other words: Rather than focusing on collecting a bro-

chure from every college booth, make it your goal to have in-depth conversations with a few of the college reps on hand.

"I encourage students to not just stop by the table and pick up a brochure, but rather engage the representative with a few questions," said Valencia Hamman, co-director of college counseling at La Jolla Country Day School (CA). "That means you want to come into the fair with a list of questions so you're ready for that opportunity."

Don't waste time on softball queries, such as "Is your nursing program good?"

"That's not a good question because it gets you nowhere ... no one is going to tell you that their program is terrible, or that it is struggling," Kaan said. "If you're interested in a specific program, like nursing, ask college reps what sets their program apart from other colleges, or ask them to compare their nursing program with one at another college that you're considering."

Keep an open mind

Take time to do a little exploring. Yes, it's important to plan ahead and select a few colleges you know you want to visit.

But each fair draws representatives from 175 to 400 campuses. The schools are located throughout the US, and from around the globe.

You owe it to yourself to follow-up with colleges that catch your eye.

"Do your research, but also have an open mind," Hamman said. "Sometimes students take time to talk with a representative from a school that they really hadn't considered before and it becomes a part of their list."

Chatting with representatives from a variety of colleges can also help you cement your own preferences, Kaan noted. "It's just as important to figure out what you don't want as

it is to figure out what is really attractive to you," she said.

Learn about the process

What's the deal with college entrance tests? What do admission officers look for in a college essay? How can I find out if I'm eligible for financial aid?

No matter where you end up enrolling, you'll likely encounter at least one of these questions during the college application process.

Use your visit to a National College Fair to get a head start. Check out the fair's education sessions, covering topics ranging from college costs, to student athlete eligibility and college selectivity.

Each fair also includes a counseling center, oftentimes an invaluable resource for students with specialized interests.

Do you love hands-on learning? Counselors can help you pinpoint colleges that provide research opportunities for undergraduates.

"There are resources available and there are people avail-

able who can help answer very individualized questions about the college search process," said Dana Lambert, a counselor at West Milford Township High School (NJ). "Take advantage of their expertise."

Follow up

Ask college reps for their contact information and be sure to follow up.

"Not always, but often, the representative that is attending the college fair is the representative that will end up reading your application," Hamman said. "Keep in touch with them; reach out with thoughtful, intelligent questions. That demon-

strates interest.'

For the colleges you want to know more about, schedule campus visits.

Remember: Your trip to a college fair is the beginning – not the end – of your college search.

"Visiting a campus is by far the most important aspect of looking for a college," Kaan said. "There's no other experience like it. It's the best way to find your perfect fit."

> - National Association for College Admission Counseling, nacacnet.org

N/CAC About NACAC

he National Association for College Admission Counseling (NACAC), founded in 1937, is an organization of more than 15,000 professionals from around the world dedicated to serving students as they make choices about pursuing postsecondary education.

NACAC is committed to maintaining high standards that foster ethical and social responsibility among those involved in the transition process, as outlined in the NACAC Statement of Principles of Good Practice (SPGP).

A member-directed organization, NACAC is governed by its voting members; an Assembly of delegates elected by voting members in NACAC's state and regional affiliates and by an elected Board of Directors.

The Board of Directors sets the strategic direction for NACAC. Additionally, 10 standing committees, ad hoc committees, and an Affiliate Presidents Council lend their expertise and experience to the issues, programs and governance that keep the association vibrant in its service to members, the profession, and students.

NACAC's award-winning publications and other media resources, professional development programs and practical research efforts have all been designed to give counseling and admission professionals the tools they need to improve the counseling services they provide to students.

Wednesday, March 21, 2018

Parking for these sessions is available at a reduced rate (\$2) at both the Augsburger and Fernbach Ramps.

Discover Gap Years Session 1 • 7:00-7:30 PM **Room 104**

Presenter: Katherine Stievater, Gap Year Advisor, Gap Year Solutions

Ever wondered if taking a Gap Year is right for you? Katherine Stievater, a Gap Year Advisor, and founder of Gap Year Solutions (gapyearsolutions.com) will explain why Gap Years for recent high school grads are growing in popularity and how any student can benefit from a Gap Year. She will explain different Gap Year options and the Gap Year planning process, including how it relates to college planning.

SAT/ACT Session 1 • 7:00-7:30 PM Room 106A

Presenter: Sharon Bertucci

School Counselor, City Honors

An overview of both tests will be presented. Tips and advice on how to best prepare for the tests will be provided as well as how results are used for college admission decisions.

Financial Aid 101 Session 1 • 7:00-7:30 PM **Room 106B**

Presenter: Katie Kocsis, Director of Financial Aid, Niagara University

You can never have enough information on financial aid. This workshop is designed to help answer questions that students and parents may have about the process of determining financial need and awarding aid.

College Athletics Session 1 • 7:00-7:30 PM **Room 103**

Presenter: Kelly Cruttenden

NACAC

Associate Athletic Director, University at Buffalo Important information for prospective student athletes will be explored. Topics include recruitment rules, academic eligibility, letters of intent, and registration with the NCAA Eligibility Center.

The Right College Session 2 • 7:40-8:10 PM **Room 103**

Presenter: Dean Reinhart, Ph.D. Associate Director of Admissions, Buffalo State College

How do you find the college that is right for you? This workshop will help students and parents examine the important factors to consider when making a decision on where to go to college.

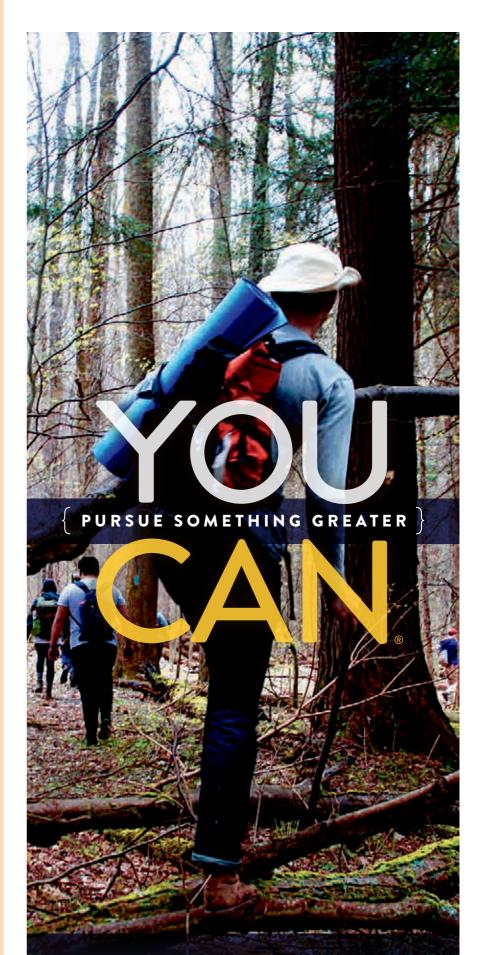

The College Essay Session 2 • 7:40-8:10 PM Room 106A

Presenter: Frank Williams Associate VP for Enrollment Management, Daemen College

This session gives you the opportunity to learn about what colleges are looking for when reading college essays. You will leave this session with confidence in writing your college essay. Some of the questions that will be addressed are: How do I decide on a topic? What are the skills needed to start writing your college essay? How do I know if this is the right essay to submit?

Applying for Scholarships Session 2 • 7:40-8:10 PM Room 106B

Presenter: Cheryl Goldstone School Counselor, Williamsville South HS This presentation offers a brief overview on private scholarships and tips for completing scholarship applications. Learn how to conduct scholarship searches using the internet and receive advice on searching for scholarships, letters of recommendation, and writing essays for the scholarship application. The Excelsior Scholarship will also be discussed.

At Canisius College, you'll embark on a meaningful journey that will challenge and inspire you on every level. Here, you'll gain a greater understanding of your field of study, of course - but also of yourself, the world, and your purpose in it. It's this deeper learning that will prove invaluable no matter where life leads.

lanning to go to college? It's important you take the right classes in high school.

Beginning in ninth grade, the majority of your classes should be ones that will prepare you for college. When it comes time to apply, you want to make sure you meet the admission criteria for ALL colleges in which you are interested. It's always better to be over-prepared than under-prepared.

Here's what you need by the end of your senior year in order to meet the admission criteria at a majority of colleges:

Math	English

calculus

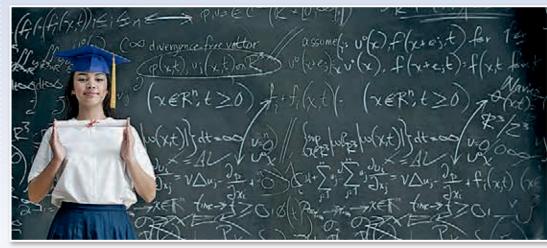

Science Take three to four years of laboratory science classes. You will have the strongest background if you have taken at least one year each of: biology chemistry physics

Arts A small number of colleges require one year of visual or performing arts prior to admission.

Foreign Language Take two to four years of a foreign language. More and more colleges are requiring a minimum of two years of language study while in high school.

Social Studies

Two years, at a minimum, of social sciences are required by most colleges. The majority of college freshmen studied world history and US history in high school. Other social science options include: government sociology geography psychology

BUFFALO BUSINESS FIRST

Picture vourself at Alfred State

10 Upper College Drive Alfred, NY 14802 607-587-4215 or 1-800-4ALFRED Web: alfredstate.edu

At Alfred State, your career is our most important mission. With our emphasis on hands-on, proj-ect-based learning, you'll truly know how to solve problems you'll face on the job, and acquire the skills and knowledge employers look for.

You may choose from more than 70 majors in such fields as agriculture, business, health, applied and en gineering technologies, or the arts and sciences. Our small class size helps you foster personal connections with your peers, and our faculty will get to know you by name

Our faculty love what they do. And because they have real-world experience, they are experts in their field and will guide you on real-world projects every day.

A lot of your education also happens outside the classroom. That's why Alfred State has more than 100 clubs and organizations to choose from. From drama to intramural sports to dancing, your interests can take you places with employers, as well. They look for well-rounded students who jump in and get involved. Alfred State offers 19 intercollegiate sports, as well as plenty of intramurals, plus great facilities for exercise or a quick game of pick-up.

Through our civic engagement programs, you can channel your passions by getting involved in community service, cultural immersion experiences, political involvement, and much more. Alfred State students are born leaders, so civic engagement with a global focus is big on campus, whether it's building a solar home in China or California, or leading disaster relief efforts in neighboring communities.

Where you live on campus is also important. Alfred State's 13 residence halls offer a comfortable setting where you can focus on your studies and just relax after class. Our residence halls are designed to fit the needs of our diverse student body, including different types of rooms and halls for students with specific lifestyles

Alfred State is located in the rural village of Alfred, which lies in the foothills of the Allegheny Mountains. The village is a center of education and culture, and mixes a college-town environment with quaintness, scenic beauty, safety, and small-town friendliness. And Buffalo is less than 100 miles away Come check us out for yourself and find out how Alfred State can help get you on the right path to a rewarding career! Founded: 1908

Buffalo State College

Established ~ 1871 Engagement. Excellence. Social Responsibility.

Buffalo State College offers degrees in the arts, education, the sciences, and profession al studies. Each year, nearly 10,000 students pursue engagement, excellence, and social responsibility on our urban-engaged campus in Buffalo's historic Elmwood Village.

Here are just a few of the amazing attributes you'll find as a student at Buffalo State:

Broad Array of High-Quality Academic Programs: As the largest comprehensive college in the State University of New York (SUNY) 64-campus system, Buffalo State offers 79 undergraduate majors, 64 graduate programs, and numerous minors and certificates. The college is recognized for its faculty excellence in classroom teaching and scholarship and is known for its small class sizes. Buffalo State offers the perfect academic blend: small college learning environments coupled with large university opportunities.

Diverse and Creative Environment: Buffalo State is among the most diverse colleges in the SUNY system, a characteristic that's reflected in the myriad of people, ideas, experiences, and program offerings found here. This diverse and creative environment fosters student

Hands-on Learning Opportunities: Buffalo State takes advantage of its location in the second-largest city in New York State by offering extensive undergraduate research opportunities, internships, service-learning programs, and career development services that benefit students and the community. As a result, job possibilities for graduates are strong and varied.

Smart Educational Investment: Buffalo State is one of the most affordable universities—public or private—in New York and beyond and we offer financial aid to approximately 85 percent of our undergraduates, with an average award package of more than \$10,000. Our graduates join a career network of more than 100,000 Buffalo State alumni (and more than 2.4 million SUNY alumni) living around the globe.

growth and success.

Location In the Heart of Buffalo's Cultural Corridor: The campus is located on a 125-acre parcel in Buffalo's museum district, adjacent to the Albright-Knox Art Gallery and Delaware Park. The Elmwood Village neighborhood is lined with a vibrant mix of trendy cafés, restaurants, shops, and Victorian-style housing. On campus, the Performing Arts Center at Rockwell Hall, Burchfield Penney Art Center, Warren Enters Theatre, Czurles-Nelson Gallery, and Bacon Student Art Gallery place the arts and creativity right at students' fingertips.

D'Youville College

320 Porter Ave. Buffalo, NY 14201 Phone: 716-829-7600 **Fax:** 716-829-7900 **Website:** dyc.edu

Description: D'Youville is a vibrant, growing campus community with over 3,000 students offering over 50 undergraduate, graduate, and doctoral degree programs along with advanced certificates and accelerated learning programs. Degrees at D'Youville include nursing, medicine, pharmacy, and various health professions, as well as business and the liberal arts, producing graduates that enjoy employment rates over 90% in most programs they complete.

D'Youville is the number one private school in Western New York for highest post-graduation salaries ten years after admission, rated a top 20% economic value by The Economist Magazine, and has been consistently named as a top-college for veterans in the nation. Offering fourteen NCAA Division III intercollegiate programs, D'Youville encourages students to balance inter-and-extracurricular activities integrating community service actives with coursework, ensuring graduates not only have the academic rigor necessary

graduates not only have the academic ring or necessary for their careers, but the skills to be leaders for the world of tomorrow. **Majors or Degrees Offered:** Accounting BS,

Daemen College

4380 Main Street Amherst, NY 14226-3592 Phone: 716-839-8225 or 800-462-7652 Fax: 716-839-8229 Web: daemen.edu

Description: Daemen takes a personalized approach to learning, providing students with a comfortable classroom setting which allows for personal interaction. Our small class sizes give students confidence to participate. Students work closely with faculty on original work, whether it is a research study or an art project. They learn to approach a problem from multiple perspectives and how to learn to succeed. The college seeks to integrate the intellectual qualities acquired through study of the liberal arts with the education necessary for professional accomplishment.

Internships, field placements, clinical assignments, and student teaching assignments give students experiential learning in a professional setting. The office of Career Services assists students, across all academic disciplines, with local and global community engagement opportunities that provide practical experience for student success. (Watch our video @ Daemen. edu/WhyDaemen)

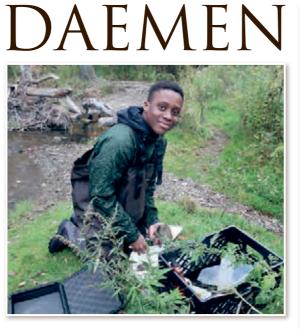

Daemen athletics is an NCAA Division II member of the East Coast Conference. Students have the opportunity to participate in recreation and intramural programs, competitive club sports, and 17 NCAA D-II athletic programs. Daemen athletics sponsors men's and women's basketball, cross men's and women's basketball, cross country, soccer, tennis, track and field, volleyball, men's golf, women's bowling and triathlon.

Daemen has been designated a

Military Friendly School. Daemen's suburban campus is located

on Main Street in Amherst, New York. Explore the campus online: Daemen. edu/VirtualTour.

Student/faculty ratio: 12:1. Small classes allow students to get the individual attention they deserve.

Tuition/costs: 2017-18 Tuition: \$27,450, Room and Board: \$12,346

Financial Aid: Daemen offers Generous Merit Scholarships: Over 96% of undergraduate students receive some type of financial aid. Students who apply to Daemen will be considered for an array of scholarship awards. Grants are available for students with highneed eligibility.

Admissions: Our Admissions staff will help guide you through the process from start to finish. We offer a rolling admissions policy. Apply online for free at daemen.edu/apply or commonapp.org. Visit Daemen! That's the best way to really get a feel for what Daemen has to offer. Schedule your visit @ Daemen.edu/Visit. If you have any questions, contact us at 716-839-8225 or admissions@daemen.edu.

How To Cope With ANXIETY In The Admission Process

BY SEAN NYHAN

hen we asked Brennan Barnard, director of college counseling at the Derryfield School (NH), what students are most worried about, his response was: "What aren't students worried about?"

It's true the college admission process warrants a certain amount of anxiety. As they continue with their regular coursework, students schedule visits to colleges, take standardized tests, monitor application deadlines, write essays, etc. But college counselors also worry about other factors outside of the traditional steps to college admission – some they have no control over – that adversely affect the student psyche.

One of the most common pitfalls, counselors say, is the search for the "best" college instead of the best-fit. College rankings, media coverage, and social media all play roles in shaping student perception, but students can easily drown in college admission anxiety once they let others identify their choices.

"I have some students who won't even look at smaller, regional colleges near us because those schools don't have a reputation that the student, or parent, is aware of," says Michael Dunn, director of college counseling at the Aim Academy (PA).

Of course, these influencers have always existed, but there are other societal trends that make today's current climate unique. Students, counselors say, are far more focused on results. In other words, they want to know that the college they attend will guarantee them a job after they graduate.

Perhaps this is due in part to the financial crisis of the last decade, or maybe the rising cost of tuition has students worried about future debt. Either way, the traditional view of higher education is changing.

"We try to emphasize the liberal arts, as we see them providing the most solid foundation for the ambiguous future job market, but our students are more interested in pre-professional programs," Dunn says. "These feel more tangible and directly leading to specific jobs."

While it is important to consider financial obligations and future job prospects into the college search, it can lead students to erroneously believe only a select few schools will provide those opportunities.

Dunn says his students often think only "good" colleges result in "good" jobs. But they fail to realize that their definition of good may be flawed. To correct their misconceptions, it's helpful to flip that model.

Instead of starting with the perceived results, counselors recommend walking back the process to the beginning. In other words, figure out how you got to your list of colleges in the first place.

Taking a break in the middle of a busy admission season is easier said than done, but according to counselors like Dunn, it is crucial. He recommends several strategies for reducing anxiety and approaching the process with a clear mind:

1. Previewing

Because it becomes more difficult to address stress when we're in full-blown panic mode, college counselors recommend using a tool called "previewing." This just means setting up a stress-relief plan ahead of time, so that it becomes easier to implement during a crisis.

2. Get outside

Successful stress relief methods vary from person to person, but there are some common methods that typically work for anyone. Going outside, whether to exercise or just sit and enjoy a local park, is one healthy remedy. "Our students, like many, are inside cats," Dunn says. "They are connected to devices all day long, and don't tend to venture outside for much unless forced to do so."

3. Get Your Work Done Early

Finishing essays and applications well before the deadline is critical, especially before senior year kicks off in earnest. Some high schools offer summer programs to help students get started early.

4. Talking to Your Counselor

Counselors are often an under-utilized resource, and students should seek them out whenever necessary. However, it's especially important to check in at the various application process benchmarks (test results, application deadlines, decisions). "I've found that students can feel like they're going through the college process alone, so having their counselor there to talk to them is critical," Dunn savs

-National Association for College Admission Counseling, nacacnet.org.

Bring this checklist when making a college visit

very college visit should have at least two dimensions, formal and informal.

To cover both dimensions, begin your planning with the following checklist. To make sure you're able to see everything you'd like to, don't forget to call the college ahead of time and schedule your visit.

Formal

- Take a campus tour
- Have an interview with admission officerParticipate in group information session at
- the admission office
- Sit in on a class (or two!)
 Talk to a professor (or two) in your chosen major(s)
- Talk to a coach in your chosen sport
 Talk to a student or counselor in the career center
- Spend the night in the dorm with a current student

Informal

- Read the student newspaper, even the adsTry to find other student publications
- department newsletters, alternative newspapers, literary reviews
- Eat in the cafeteria
- Ask a student why he/she chose this college, and what's their favorite part about itWander around the campus by yourself
- Search for your favorite book in the library
- Read the bulletin boards in the student union and in the academic department you're interested in.
- Ask a student what he/she dislikes about the college
- Browse in the college bookstoreEavesdrop on students to hear what
- Envestion of statements to near what they're talking, or complaining about
 Surf the Net in the student computer
- center
 Walk or drive around the community surrounding the campus to explore the surrounding area
- Find out if there is public transportation or if you can have your vehicle on campus
- Ask a student what he/she does on weekends
- Ask career services about upcoming job opportunities
- Look into clubs and organizations on campus that interest you
- Listen to the college's radio stationTry to see a dorm that you didn't see on
- the tourSee if you can imagine yourself at this college

—National Association for College Admission Counseling, nacacnet.org

- 1. What are the admission requirements (GPA, SAT/ACT scores, class rank, etc.)?
- 2. What is the admission policy of your school (application deadline and fee, rolling admissions, early admissions, etc.)?
- 3. What do I need to do to complete your college admissions process? Is an essay required? If yes, what should I write about?
- 4. Is an admissions interview required, or just strongly suggested? What type of questions will be discussed?
- 5. What is the cost for one year? What types of financial aid are available?
- **6.** Are academic or athletic scholarships available, if so what are the criteria?
- **7.** When should I begin the financial aid process? What is the average freshman award?
- 8. Is the location of the school rural, urban, or suburban?

9. Is housing available on campus for students? Do freshman have to live on campus, and are they allowed to have a car on campus?

representative

- **10.** How many students live on campus in residence halls? How many students typically live together in a room? Is housing assured to everyone?
- **11.** Do the residence halls provide Internet access?
- 12. Are there places or programs to receive tutoring assistance in areas such as reading, writing, study skills, word processing instruction if I should need it?
- **13.** Can freshman declare majors? Can I choose "Undeclared" if I don't know yet what I want to do?
- **14.** Do veteran faculty members teach freshman courses or do graduate assistants teach them?
- **15.** What is the ratio of students-to-faculty in freshmen courses?
- **16.** What student organizations, clubs, and activities are available?

- What intercollegiate sports do you offer? What division is your school? Do you offer intramural sports activities?
- **18.** Does your school give college credit for Advanced Placement (AP) examinations? What AP score is needed in order to receive college credit?
- **19.** Does the school have a Placement Office?
- **20.** What is the placement rate for my major?
- 21. How do I schedule a campus visit?
- 22. Do you offer a study abroad program?23. May I observe a class? May I come
- for an overnight visit, or shadow a current student in the same major of my interest? When may I come?
- **24.** When is your school's open house?
- **25.** Do any of the outside activities that I participated in count in the admissions decision

Visit www.edinboro.edu for a complete list. **Academic calendar:** Summer sessions begin May 21, June 11 and July 16, 2018; Fall: Aug. 27-Dec. 14, 2018; Spring: Jan. 14-May 3, 2018.

Undergraduate enrollment: 5,575

 Faculty: Class sizes are small and are taught by 327 internationally recognized faculty. 82 percent of whom hold terminal degrees in their field, offering students the personalized and high quality education they need to succeed.
 Tuition/costs: \$10,281 per year undergraduate tuition

and mandatory fees (in-state) **Financial aid:** 90 percent of undergraduate students

receive some form of financial aid; \$4.7 million in institutional scholarships and awards in 2015-16.

Admissions: Apply today at www.edinboro.edu/ admissions.

Far enough to be on your own. Close enough to come home with laundry.

Just two hours from Buffalo, FLCC is located on a scenic 250-acre campus in the heart of the Finger Lakes region. Stop by our booth to check out your options of degree programs, sports and student activities. For more details, visit flcc.edu, email onestop@flcc.edu, or call 585.785.1000!

Put to the test Preparing for SAT/ACT

tressed about standardized tests?

Here's some good news: There's no need to cram. Taking rigorous classes in high school is by far the best preparation strategy. That said, there are a few additional things you can do to make sure you do you perform well on test day.

Pick up a book: No, you don't have to plow through Moby Dick (though that wouldn't hurt)! But you should spend at least 15 minutes reading for fun each day. Choose books, magazines, and newspapers that you enjoy—everything from Harry Potter to The New York Times can strengthen your reading comprehension and vocabulary.

Hone your writing skills: Both the ACT and SAT include an optional essay section. Whether you're writing a research paper for school or working on your own short stories, your writing skills will improve with practice.

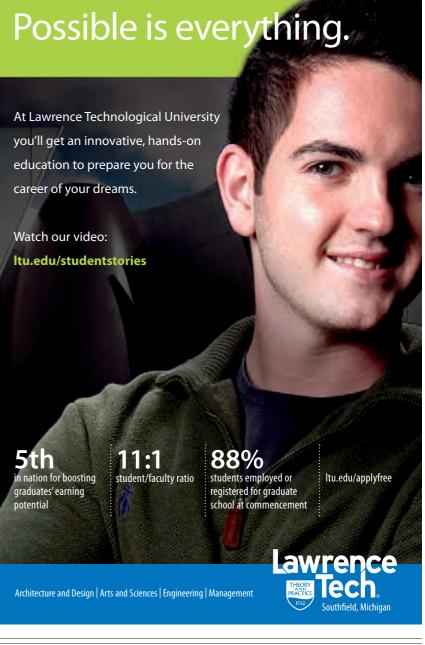

Strategize: Test-taking skills can be learned through practice. Both the ACT and SAT provide sample questions, and practice tests are available online. Try them out and look carefully at the questions you get wrong. If you find that certain types of questions or certain topics stump you, get some help from a teacher in those areas. For example, a math teacher can recommend a good book to review the basics of geometry or algebra.

Come prepared: Set out everything you'll need (including your No. 2 pencils) the night before the test and get plenty of rest. Arrive at the testing center early and don't skip breakfast. It's harder to concentrate when you are hungry. Relax: Scores are important, but they're not nearly as important as many students think. Although each college uses test scores differently, admission decisions are rarely based solely on test scores. In fact, your academic record the courses you've taken and the grades you've received—is looked at much more closely than your test scores.

Factors in the admission decision:

A student's high school record continues to be the most important factor in college admission decisions for prospective first-time freshmen.

Using High School Courses and Activities to Prepare for College

Early Decision, Early Action, Rolling Admission, Regular Decision

Different application plans have different requirements and obligations. Be sure you understand them.

- **Early Decision** If you apply Early Decision, you are committing yourself to attend that college if admitted. You file the application early in senior year and are notified of the college's decision around the end of the fall semester. You may have only one active Early Decision application filed at a time.
- Early Action You apply to the college during fall of your senior year and the college notifies you well before their Regular Decision deadline about their decision. You are not obligated to attend the school. You may submit Early Action applications to multiple colleges.
- Single Choice Early Action or Restrictive Early Action – This is the same concept as Early Action. BUT the colleges that use this form will restrict your ability to apply Early Action or Early Decision to other colleges.
- Rolling Admission A college will make its admission decision soon after an application is completed. Decisions are based on a "rolling" basis.
- **Regular Decision** A college has a specific deadline by which all applications must be completed. All applications are evaluated, all decisions made and notification letters are then sent to applicants.

our post-high school years hold tremendous promise. At college you'll have the opportunity to make new friends, follow your interests and — hopefully— find a satisfying career.

However, nearly half of all students who enter college fail to graduate with a bachelor's degree within six years.

"There are two reasons why kids flunk out," said Amy Thompson, a counselor at York Community High School (IL). "They are either academically unprepared or they are emotionally unprepared."

Increase your chances for success by making the most out of your high school years.

Buckle down in classroom

Taking rigorous classes in high school doesn't only help you get into college, the knowledge and skills you acquire work double-duty, preparing you to be successful in your pursuit of a degree.

Seek out honors, Advanced Placement (AP) or International Baccalaureate (IB) courses in subjects that interest you.

"You want to take the most demanding courses you can while maintaining your sanity and still achieving good grades," Thompson said.

Look for courses that require lots of writing and critical thinking—two skills you'll be asked to use in almost every college class. Don't panic if the material seems difficult at first. Developing good study habits and time-management skills in high school can help you persevere in college, even when times get tough.

Some rigorous courses actually allow you to jumpstart your postsecondary education. Students who do well on AP tests, for example, can earn college credit. Some high schools also partner with local colleges to offer dual-credit courses for high school students.

Get involved

From athletics to theater to volunteer work—there's a whole world of extracurricu-

lar activities open to high school students. "It can be overwhelming," Thompson said. "But the one piece of advice I give students is don't just join something to pad your resume. Pick something you're genuinely interested in."

Your goal: By senior year, "be in a position that shows not only your devotion to the group, but also some level of initiative or leadership on your part," she said.

"Admission officers can see through the applicant who joins a million different clubs in their junior or senior year," Thompson noted. "Use your activities to show colleges who you are."

Universities are looking for students who will make the most of the opportunities available to them. A high school record that includes extracurricular activities helps show admission officers that you'll be a valuable part of their campus community.

Finish strong.

Your senior year of high school will be hectic.

In addition to applying for colleges, you may find yourself leading a student organiza-

tion or sports team. It can be tempting to sluff off in the classroom, but stay focused. Senior year grades and courses still count.

"You need to maintain your academic performance, and do at least as well—if not better—because you don't want to have your admission offer rescinded," Thompson said.

When planning out your schedule, make sure that you're on-track to meet college entrance requirements, including at least two years of a foreign language and four years of math, science and English courses.

"Colleges want to see that you know how to work hard, and that you have taken advantage of the courses and activities your high school has to offer," Thompson said. "A strong finish in your senior year helps make you a more attractive candidate."

Earning College Credit in High School Choose advanced courses in the subjects that you enjoy the most and can succeed in.

Top 10 Tips for Writing that College Essay

1. Start early

More time = less stress. You'll have plenty of time to give the essay your best effort. **2. Be yourself.**

One of the biggest mistakes students make is writing what they think others want to hear, rather than about an issue, event, or person they care about. An essay like that is not just boring to write. It's boring to read. What interests you? What do you love to talk about? Write about that. Think of your essay as a creative way to help college officials get to know you as a person.

3. Be honest.

College admission officers have read hundreds, even thousands of essays. They are masters at discovering any form of plagiarism. Don't risk your college career by buying an essay off the internet or getting someone else to write your essay.

4. Stay focused.

Read the essay question carefully. Jot down a few ideas, then choose the one that looks like the most fun to write about. Stick to that main theme throughout the essay. Essays can help you make your case to admission officials, but don't go overboard. There will be opportunities elsewhere in the application to list all your achievements.

5. Put your best foot forward.

Applying online may feel like you're sending email, but you're not. Incorrect capitalization or abbreviations like B4 or "thanx" are not appropriate for a formal document. Make sure your essay represents the best of you.

6. Write and rewrite.

Don't try to knock out a masterpiece on your first try. For your first draft, write anything that comes to mind about your topic. Let it "rest" for a few hours or a few days. When you come back to the draft, look for ways to make it more focused and better written. Are there details that don't really relate to the topic? Cut them. Do you need another example? Put it in.

7. Get a second opinion.

When you've rewritten the essay to your satisfaction, find someone who can give you advice on how to make it even better. Choose a person you respect and who knows something about writing. Ask them to tell you what they like best about your essay, and what you can do to improve it.

8. Keep an open mind.

Criticism can be tough to hear, but try to listen with an open mind. You don't have to make every change suggested. After all, it's your essay and no one else's. But you should seriously consider each suggestion.

9. Proofread, proofread, proofread.

Little errors creep in throughout the writing and editing process. Before you submit your essay, make sure to proofread. Try reading your essay aloud or having someone else read it to you. Another strategy is to read the essay backward, from the last sentence to the first. Errors your eye may have previously skipped over will jump out at you.

10. Don't expect too much from an essay.

The application essay is important. But admission officers look at the whole package – your academics, extracurricular activities, standardized tests, and other factors. Make your essay as well-written as you can, but don't put so much pressure on yourself that the rest of the application fades in importance. —National Association for College Admission Counseling, nacacnet.org

Earning college credit in high school

olleges look for students who take the most demanding courses available. But they also expect students to do well in those courses.

If your high school offers an array of advanced classes, it may be tempting to try to take them all. But beware of overburdening yourself: Too many tough courses can lead to high stress and lower grades. Instead, choose advanced courses in

Instead, choose advanced courses in the subjects that you enjoy the most and can succeed in. If you're unsure of how much work you should take on, discuss your choices with your school counselor, a teacher, or a parent. Options to investigate include:

Advanced Placement and International Baccalaureate

Many high schools offer Advanced Placement (AP) and International Baccalaureate (IB) courses. Students in these classes complete advanced, college-level coursework. At the end of each course, they take a standardized test to prove they have learned the material.

Students with high scores can receive college credit at many colleges around the country, and admission officers view enrollment in AP and IB courses as evidence that students sought out challenging coursework while in high school.

Dual Enrollment Courses A growing number of high schools are partnering with local colleges to provide dual enrollment courses. In these programs, students can earn college credit by taking the same courses as students at a nearby community college.

In some cases, the dual enrollment classes take place in the high school during the school day. Others require students to attend regular classes on the college campus.

the college campus. Because of the variety inherent to dual enrollment offerings, colleges may or may not accept dual credits. However, having dual enrollment courses on your application shows that you're interested in challenging yourself academically.

efore you can apply to colleges, you need to decide which of the many colleges and universities out there are right for you. There is likely to be more than one college that will meet your needs. Many factors go into that decision and only you know which ones are important. The following information will help you.

7 key factors to consider

1 Location: Which part of the U.S. do you prefer? Will you stay in your state? Do you favor urban, suburban or small town rural areas?

Public/private: Which seems the best choice

for you? If you like the status and prestige of a private school or selectivity at public school prices, check out Richard Moll's The Public Ivys, Rugg's Recommendations, or US News & World Report.

Size: Do you want to go to a big school or a small school? Where will you feel most comfortable? Do you plan to go on to law or med school? Where can you get the best preparation?

2 or 4 Year: What type of degree do you need, associates or bachelors? You can transfer from 2 to 4 but be careful about which course you take, so that credits transfer. If you choose this option, pick a

2 year school with joint-admissions to a 4 year. **Programs:** Are you looking for

looking for a particular major, strong theater department, ROTC or a chance to play a sport? Does the college have good job placement in your chosen major?

Cost: What can you afford? What type of scholarships and aid does the college offer? Don't eliminate a school based on cost initially. Check with their financial aid office to find out if you might receive a package to make it affordable.

Chances: Can you get in? Do your grades and SAT/ACT scores match what the college is looking for?

UP CLOSE & CONNECTED Small classes. A close-knit campus. Professors you can connect with.

St. John Fisher College students benefit from a strong liberal arts foundation, and they have four world-class professional schools at their fingertips. A closer look at Fisher reveals a transformative education designed to inspire new thinking, build character, and create meaningful opportunities.

Niagara County Community College

3111 Saunders Settlement Road Sanborn, NY 14132 Phone: 716-614-6222 Fax: 716-614-6224 Email: admissions@ niagaracc.suny.edu Web: niagaracc.suny.edu, nfculinary.org

Description: Niagara County Community

College (NCCC) remains one of the fastest growing institutions of higher learning in Western New York. NCCC continues to stay ahead of the curve by offering new and exciting programs in some of the most in-demand fields in the region such as surgical technology, mechanical technology, physical therapy assistant and dietetics studies.

NCCC has a full Workforce Development program which features adult learning classes, as well as over 100 online classes and full degree programs for those looking for a flexible schedule. The Niagara Falls Culinary Institute (NFCI) is home to NCCC's Hospitality, Baking and Pastry Arts programs and is equipped with seven state-of-the-art teaching kitchens featuring European island cooking suites. Programs include culinary arts, baking and pastry arts, winery operations and

hospitality, to name a few. The Student Housing Village at NCCC offers residents furnished student apartments with full kitchens, living areas and private bedrooms. For more information, visit us at www.niagaracc.suny.edu/housing. With several dual-admission programs and seamless transfer options, NCCC makes it easy to continue your education at hundreds of colleges and universities.

Majors and degrees offered: More than 60 degree and certificate programs, including popular programs in Digital Media, Biotechnology, Phlebotomy, Engineering Studies, Surgical Technology, Business, Health Studies, Welding and Music.

Academic calendar: Fall, winter, spring and summer semesters

Undergrad enrollment: 5,892 Full time Faculty: 110

Full Time Tuition/costs: \$4,224 annually plus fees

Financial aid: Email finaid@niagaracc.suny.edu or call (716) 614-6266.

Make the most of your time with your Hereit School Counselor

chool counselors are one of the best sources of support for students who plan to go to college. They can provide guidance and support throughout the entire process. If you are lucky enough to have access to a counselor in your school, it is in your best interest to

visit that person on a regular basis. Throughout your high school years, your counselor can help you. Here's how.

• Plan classes that will prepare you for college admission and success.

• Review your academic record and suggest areas that need improvement. If you need to do some catching up, your counselor can help.

• Begin the admission process by identifying the questions you should be asking – and finding honest answers.

• Clarify and understand terms that you will encounter during your college search and selection process.

 Identify special opportunities that may maximize your chances of being a well-prepared and appealing candidate to colleges.
 Register for college admission tests, like

the SAT and ACT.

• Secure applications, identify deadlines, and prioritize the tasks you need to complete as you apply for college.

• Apply for fee waivers when signing up for tests or submitting applications.

• Polish your applications and any required college essays so that the product you send to colleges will represent the best of your thinking and writing abilities. (Make sure you take a rough draft to your counselor early on. Leave plenty of time for revision and rewriting.)

• Explore options to pay for college.

• Provide a letter of recommendation to colleges or universities.

· Compare offers of admission and financial

Attention Counselors! 5 for 50 Challenge

he Buffalo National College Fair Committee is excited to offer school counselors a chance to enhance their experience at our fair which is being held March 21 and 22, 2018. We are encouraging local counselors to reach out and meet college representatives from colleges and universities outside of our area in attendance, while at the same time be entered for a drawing to win a \$50 gift certificate to Premier or Wegmans.

College representatives have told NACAC of their desire to interact more with the counselors who accompany their students, they would love an opportunity to meet you and talk about what their college has to offer your students. They certainly enjoy talking to your students, but they would also like to talk to you. Who knows? a conversation could lead to that college visiting your high school next fall or maybe even participating in one of your evening programs or at the very least you realizing you have a potential student that would be a good fit for that college.

So, how are we going to help facilitate these conversations? Simple, while you are registering your

students for the Buffalo National College Fair, you can also register as a school counselor. All you will need to do is print out your bar code, which will be specifically created and designed for school counselors. While your students are walking around the fair, we encourage you to do the same and talk to at least 5 colleges from outside Western New York. Any counselor who has their bar code scanned by at least 5 colleges from outside the Western New York area will be entered to win a \$50 gift certificate to either Premier or Wegmans. The Local Arrangements Committee will randomly select 2 winners from the list of school counselors who have talked to at least 5 colleges to win the gift certificates.

We are excited to offer this opportunity to connect school counselors with college representatives. As an added bonus, you could be the lucky winner of \$50 gift card! You can't win unless you participate, so while your students are registering you should also register. Then while at the fair, walk around the convention center and talk to college representatives from some colleges that you are not super familiar with who are outside the 716 area code.

aid.

Most school counselors advise several students. Here are a few things you can do to make it easier for your counselor to provide you with assistance.

• Make appointments early and show up on time.

• Submit any forms that require counselor completion well in advance of due dates.

• Carefully follow any procedures that have been established by your school for securing transcripts and turning in applications and related forms.

• Whenever possible, make copies of everything you give to your counselor. Some-

times, with so much paper, things get lost. • Make sure you keep your counselor in the loop when colleges inform you of their admission decisions. If there are any problems which arise, your counselor can advocate on your behalf.

• Whenever you have questions don't hesitate to return to your counselor for advice, especially if you feel you are being asked by a college to do something that just doesn't seem right. Your counselor will know the rules governing college admission.

• If you think it would be helpful, try to schedule a meeting with your counselor and your family. There are parts of the college application process that will require their assistance. This is particularly true when it comes time to complete financial aid applications.

• Finally, when all is said and done, and you have made it successfully through the college selection and admission process, make sure you take time to thank your counselor. Your expression of gratitude will build a reservoir of goodwill should you need to return for further assistance at any time in the future.
