TCEQ Internal Control No. D-03312020-035**

PETITION. Landmark Industries, LLC, a Texas limited liability company, and Landmark Industries Development, LLC, a Texas limited liability company (collectively, the Petitioner), filed a petition for creation of Harris County Municipal Utility District No. 559 (District) with the Texas Commission on Environmental Quality (TCEQ). The petition was filed pursuant to Article XVI, § 59 of the Constitution of the State of Texas; Chapters 49 and 54 of the Texas Water Code; 30 Texas Administrative Code Chapter 293; and the procedural rules of the TCEQ.

The petition states that: (1) the Petitioner holds title to a majority in value of the land in the proposed District; (2) there are no lienholders on the property to be included in the proposed District; (3) the proposed District will contain approximately 427.362 acres located within Harris County, Texas; and (4) the proposed District is within the exclusive extraterritorial jurisdiction of the City of Houston, Texas and no portion of land within the proposed District is within the corporate limits or extraterritorial jurisdiction of any other city, town or village in Texas.

By Ordinance No. 2019-49, passed and adopted January 23, 2019 and re-approved March 30, 2020, the City of Houston gave its consent to the creation of the proposed District, pursuant to Texas Water Code § 54.016.

The territory to be included in the proposed District is set forth in a metes and bounds description designated as Exhibit "A" and is depicted in the vicinity map designated as Exhibit "B," both of which are attached to this document.

The petition further states that the proposed District will purchase, design, construct, acquire, maintain, operate, improve, and extend water, wastewater, drainage, road, and park and recreational facilities for residential purposes.

According to the petition, a preliminary investigation indicated a total project cost of \$485,000,000. However, based on subsequent information received from the Applicant, the total project cost will be \$74,300,000 (including \$60,500,000 for utilities plus \$9,750,000 for roads plus \$4,050,000 for park and recreational facilities).

CONTESTED CASE HEARING. The TCEQ may grant a contested case hearing on this petition if a written hearing request is filed within 30 days after the newspaper publication of this notice.

To request a contested case hearing, you must submit the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number, and fax number, if any; (2) the name of the Petitioner and the TCEQ Internal Control Number; (3) the statement "I/we request a contested case hearing"; (4) a brief description of how you would be affected by the petition in a way not common to the general public; and (5) the location of your property relative to the proposed District's boundaries. You may also submit your proposed adjustments to the petition which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing to the Office of the Chief Clerk at the address provided in the information section below.

The Executive Director may approve the petition unless a written request for a contested case hearing is filed within 30 days after the newspaper publication of this notice. If a hearing request is filed, the Executive Director will not approve the petition and will forward the petition and hearing request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. If a contested case hearing is held, it will be a legal proceeding similar to a civil trial in state district court.
